Functional Requirement	Class name	Method name
FR1: Project Management	GreenSQASystem	projectCreation(): void
	Green	Green(Constructor)
	Projects	Projects(Constructor)
FR2/FR3: Project stages management and culmination	GreenSQASystem	stageCulmination():void
	Green	stageCulmination(params): void
	Projects	culminateStage(param):void
FR4: Register knowledge capsules	GreenSQASystem	registerCapsule():void
	Green	registerCapsule(params):void
	Projects	regCapsule(params):void
	Capsules	Capsules(Constructor)
FR5: Capsule Approbation	GreenSQASystem	capsuleAprobation():void
	Green	aproveCapsule(params):void
	Projects	aproveCapsule(params):void
FR6: Capsule publishing	GreenSQASystem	capsulePublishing():void
	Green	publishCapsule(params):void
	Projects	publishCapsule(param):void
FR7: Capsule search (not yet implemented, next delivery requirement)	GreenSQASystem	capsuleSearch():void
	Green	searchCapsule(params):void
	Projects	searchCapsule(param):void
